October 6, 2016

Dr. R.L. Bhatia,
The Address Hotel
Camp: Dubai.

Dear Dr. Bhatia,

It was indeed a superb event yesterday at The Address, Dubai Mall and I thank you for your great hospitality. I was quite impressed the way the function was organized by you.

I am sending a copy of my autobiographic work "***Taking the High Road***". I hope you will enjoy reading as much I have enjoyed writing.

It did not seem that the train of my life had reached its last platform but during encounters with many friends it was often suggested to pen down my memories for the present and future generations.

This is how idea of my autobiography "***Taking the High Road***" was conceived and after nearly four years of work it was finally launched by a European Publishing House – Motivate in the year 2003. The book went for its new edition in June 2013 after the first run of 10,000 copies was exhausted.

The publication is a small contribution to the societies and the countries which have played major role in shaping me. I hope my work inspires you to achieve still greater heights.

With best regards,

Yours sincerely,

Ram Buxani

Dr. Ram Buxani
